

CHRISTMAS TREE GARLAND

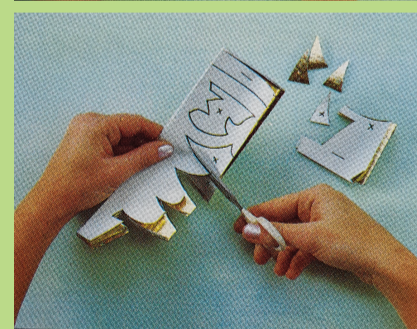

What you need:

Wrapping Paper, Scissors

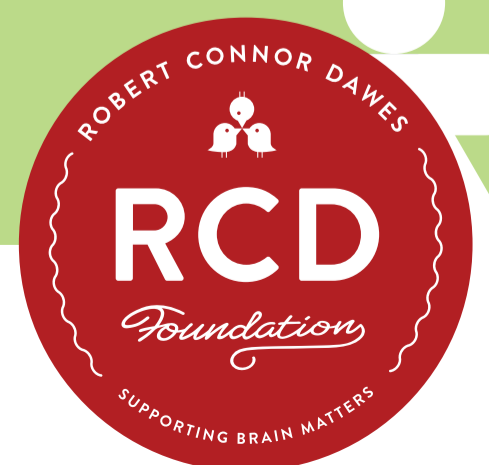

How to do it:

1. Make a tree template using the pattern on page 2. Using foil or normal wrapping paper, cut a long strip slightly wider than the template height.
2. Line up the template along the short edge of the wrapping paper, draw around the template to create an outline.
3. Fold the gift wrap concertina style along its length.
4. Cut through all the layers including the enclosed section. **Be careful not to cut through the folds.**
5. Unfold the paper and decorate with stickers!
